

# How to Join Team Example

- Go to 2010.igem.org
- Proceed to iGEM 2010 Registration

## iGEM 2009 Participant and Team Registration

This is the central page for iGEM 2009 registration. From here, you can create your own personal account, create or join a normal team, and enter all of the information needed to participate in iGEM 2009. In March, we will have a separate registration page for Do-It-Yourself and other non-competition teams.

### Step 1 - Learn about the registration process

Registration for iGEM includes registering users, registering teams, maintaining team rosters, distinguishing instructors from students, paying team fees, shipping the DNA kit of parts, registering for the jamboree, and even more. We have prepared a registration handbook that explains this.

- Read the Registration Handbook
- Frequently asked questions
- Learn about the new experimental track

### Step 2 - Create or update your iGEM account

Every participant in iGEM 2009 needs a user account. This one account will let you apply for a new team, give you access to the tools of the Registry, let you add or edit parts, and let you edit the contents of the iGEM and Registry Wikis. If you already have an account, please update it with additional information for iGEM 2009.

- You are logged in as meagan
- Update your user information
- Log out

### Step 3 - Join an existing team or register a new team

Your team may already have applied to iGEM 2009. Once its application is accepted, you can join the team using a membership code given to you by one of the team leaders or by applying for membership and waiting for approval from the team leader. A team's primary faculty contact may apply for a new iGEM team.

- See if your team has already applied
- Join an existing iGEM 2009 team
- Apply for a new iGEM 2009 team

### Step 4 - Continue or review team registration

Anyone may review the team registration and any team leader may update the team information. The primary contact will need to provide a brief resource description to show that they understand the resources that will be required.

- Select a team
- Review and update your team's registration
- Add DNA kit shipping information
- Send in your resource description

### Step 5 - What happens next

For new teams, iGEM Headquarters will verify the basic registration information and may contact the team leader for more information before accepting the application. For new users, once your account is approved and your team's application is accepted, you will be able to use all the software tools.

- How to pay your registration fees
- How to contact iGEM
- Frequently asked questions

- Login
  - If you do not have a user account, you will need to create one by going to “Apply for a User Account”
- Return to the iGEM Registration page
- In Step 3, click “Join an existing iGEM 2010 team”
  - You should see that you are logged in as yourself
  - In the “iGEM 2010 Team Name” drop-down list, choose Example
  - In the “iGEM 2010 Team Role” list, choose Student
  - In the Team Membership Code box, enter **fbc0b5**
  - Click Apply.

## iGEM 2010 Team Membership Application

[Return to the iGEM Registration Page](#)

Use this form to join an iGEM 2010 team. Select your iGEM team from the popup menu and specify your role on the team. If you have received a valid Team Membership Code from your team leaders, your account will be active immediately, otherwise, your account will be active once it is approved by one of the team's leaders. If your team's application has not yet been approved, your account will be active once the team has been approved by iGEM HQ.

**You are logged in as:** Meagan Lizarazo

User Name meagan  
E-mail meagan@igem.org

**iGEM 2010 Team Name**

[Browse the team list](#)

Example

**iGEM 2010 Team Role**

- Student
- Instructor (Including Faculty)
- Advisor
- Other

Please enter your role on this iGEM team. This may be different from the position you hold at your school. For example, a Grad Student may be an Instructor to this team.

**Team Membership Code**

fbc0b5 (If you have one from your team leaders)
